

PRESS FITTINGS FOR PEX-AL-PEX PIPES

FEMALE TEE FITTING

4032

- Female tee press fitting
- Maximum operating pressure 10 bar
- Thread EN 10226-1
- Temperature range min 0°C – max +95°C
- The jaws for the fittings pressing have to be **TH** profile.

Fitting suitable for distributing fluids that are generally non-corrosive, compatibly with the fitting materials.

Heating, plumbing and industrial systems are the ideal fields of application, such as high and low temperature heating systems, air-conditioning and distribution of drinking water.

The tightness is guaranteed by two EPDM PEROX O-Rings, particularly recommended with water-glycol solutions, with a maximum glycol presence of 50%.

The steel sleeve pressing, carried out with electromechanical tools, ensures a perfect and indivisible crimping to the pipe as well as an excellent resistance to external stress.

ACS**COMPONENTS**

POS.	PART NAME	N°	MATERIAL
1	Fitting	1	CW617N UNI-EN 12165
2	O-Ring	4	EPDM Perox
3	Washer	2	PTFE
4	Bushing	2	AISI 304 stainless steel
