

PRESS FITTINGS FOR PEX-AL-PEX PIPES

PRESS FITTINGS WITH
PERFORATED FIXED PIPE
BRACKET

4004

- Press fittings with perforated fixed pipe bracket
- Maximum operating pressure 10 bar
- Thread EN 10226-1
- Temperature range min 0°C - max +95°C
- The jaws for the fittings pressing have to be **TH** profile.

Fitting suitable for distributing fluids that are generally non-corrosive, compatibly with the fitting materials. Heating, plumbing and industrial systems are the ideal fields of application, such as high and low temperature heating systems, air-conditioning and distribution of drinking water. The tightness is guaranteed by two EPDM PEROX O-Rings, particularly recommended with water-glycol solutions, with a maximum glycol presence of 50%. The steel sleeve pressing, carried out with electromechanical tools, ensures a perfect and indivisible crimping to the pipe as well as an excellent resistance to external stress.
