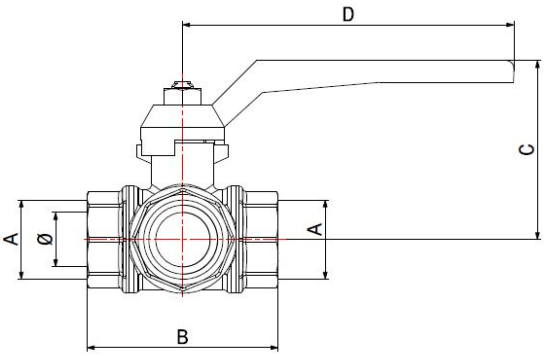
WATER BALL VALVES

MISSISSIPI

7620



- T/L 3-way ball valve
- Thread ISO 228
- Version T code 762040
- Version L code 762041
- Temperature range min -10°C - max +95°C

Valve suitable for distributing and interrupting liquids that are generally non-corrosive, compatibly with the valve materials. Plumbing. heating, industrial and agricultural sectors are the ideal filds - especially the hydraulic plants, compressed air, oil and petrol distributors network, glycol, heating, conditioning.
The ball valve diverts the flow from one line to the other one without the usage of other two way valves.
The ball seal is guaranteed by four PTFE seats and adjustable gland.
